

September 29, 2021

Dear Parents and Guardians of New Haven seventh and eighth grade students,

Chromebook Insurance for Middle School

In the district's goal of achieving 1-1 student to computer device, all seventh and eighth grade students will receive a new Chromebook to be used for curriculum starting next week. These Chromebooks will be assigned to each student and they can bring the Chromebooks home with them. The Chromebooks will then be returned to the district at the end of the school year.

Your student(s) are responsible for these devices. We recognize that accidents can happen, and would like to offer a Protection Insurance Plan to all families for your student device. This insurance is through a third-party company, School Device Coverage, Inc., and you will need to sign up directly with them (flyer attached). When there is a claim made, you will need to make it directly with School Device Coverage and then New Haven Technology Department will work to get the student a replacement device within the next school day.

School Device Coverage protection plan will cover accidental damage to the Chromebook as well as theft. All lost and theft claims must be accompanied by a police report.

Costs are outlined below for the annual protection plan.

Parents who choose not to purchase technology protection will be fully responsible for any loss, theft or damage to the Chromebook.

Protection Plan Details**No Protection Plan Costs**

Annual Cost: \$36/year per student device Protected September-July of the current school year Payments are arranged with School Device Coverage	Estimated repair or loss costs: Chromebook Touch Screen: \$ 220 Chromebook Keyboard: \$110 Chromebook charger: \$45 Chromebook TrackPad: \$90 Chromebook replacement: \$400
---	---

To enroll in the protection plan for 2021-2022, use this link to access the School Device Coverage webpage under the EMS Patents page found under the school buildings pages (Endeavour Middle School)
